

A Continued Voice of Reason for Cedar Hills!

Personal: Resident of Cedar Hills for 15 years; married to my wife Kari for 33 years, we have reared our 4 sons here. Owner of Huntington Homes; a homebuilder and general contracting company, previously held senior management positions with several national and local homebuilding companies. Graduate: Construction Management: BYU and MBA: Marriott School of Management-BYU. I understand the challenges of running a business and have taught as an adjunct professor in Construction Management at BYU. I previously served as a member of the Cedar Hills Planning Commission.

I am currently a member of the Cedar Hills City Council.

- **Experience counts:** As your currently elected City Council Member I have learned a tremendous amount about what it takes to run a city effectively. These past 2-years have given me a clearer insight into the issues surrounding our City; I would like to parlay this experience into 4 more effective years as your elected official. I have really enjoyed my service thus far!
- **Recreation / Golf Course:** A strong advocate in seeing that our Golf Course continues to move in the right direction. **We have made great strides in making the Golf Course more profitable, it is important to keep positive publicity surrounding the Golf Course, I pledge to continue that fight!** I have a personal love of the game of golf; I also love all other outdoor recreational activities and support opportunities for all residents of the City. I love our trails and parks; **OPEN SPACE should be preserved at all costs!**
- **Fiscal Responsibility:** Keep our budgets and finances in proper perspective and continue to ensure that the residents are informed of how *their* tax dollars are allocated and spent! I understand the importance of supporting /maintaining strong public safety, public facilities/employees and community events.
- **Future growth of the city:** Our emphasis should be in attracting viable commercial businesses that enhance the livability of Cedar Hills Residents and increase our tax revenue. New projects should conform to our zoning and design guide-lines that are established in our city. **I am against High-Density housing in our Commercial Zone!**
- **American Fork Canyon:** As an outdoor enthusiast, I want continued protection of our natural resources and our beautiful canyon!

I welcome your vote for Cedar Hills City Council!
