

HI, MY NAME IS **PAUL SORENSEN**

I AM A CANDIDATE FOR CEDAR HILLS CITY COUNCIL

WHY I BELIEVE I SHOULD **REPRESENT YOU...**

My positions on major issues facing Cedar Hills:

- **Golf Course:** I am neither for nor against it! I **strongly** support residents voicing their opinions on [1] continuing to subsidize the golf course; or [2] subsidize another option(s), e.g., parks with trees, recreation fields, library, pool, etc.
- **Commercial Development:** I am opposed to high-density housing. The remaining commercial property south of Walmart should provide retail tax revenue without compromising our small-town atmosphere.
- **Automated Pressurized Irrigation monitoring system:** I am opposed to spending \$2 million on an automated system.
- **American Fork Canyon:** I am opposed to the land swap. I support protecting the legacy of the American Fork Canyon.

My number one priority is safeguarding family life. I love living in Cedar Hills!

My key tenets:

- Minimize fees and taxes.
- Encourage commercial development to source additional tax revenues.
- Ensure transparent and responsible allocation of taxpayer dollars.
- Promote family-friendly venues.

My pledges:

- Give allegiance, listen, and respond to feedback from all Cedar Hills residents.
- Work to earn and retain your trust.
- Review and analyze issues in detail and articulate options and solutions.
- Promote good will and harmony in Cedar Hills by supporting efforts to:
 - Provide opportunities for residents to vote how their tax subsidies are spent.
 - Include timely information (plus opposing views) on critical issues in the news-letter.
 - Introduce the concept that each member of the City Council be given the opportunity to nominate members of committees, commissions, etc.
