Subject: Gramma requests for Cedar Hills Golf Course records

Date: June 14, 2018 at 9:26:06 AM MDT

To: Ken Cromar <kencromar5@gmail.com>

Ken,

In the event it may be of any assistance to you in connection with today's hearing, may I add my statement that I have worked with you and other members of CHCRG for at least the past seven years in an attempt to obtain complete and competent records from the City of Cedar Hills regarding free golf records, among other requests. It has been a difficult and discouraging experience which has cost considerable money and untold hours of time which we really don't have to try to reach the truth. The latest act of the City refusing to verify the accuracy and validity of golf course records obtained by former City Councilman, Rob Crawley, is indicative of what we have experienced time and time again over the last several years. If the records do not now exist, it is only because of the City's failure to properly maintain them and I cannot conceive as to why they will not verify, or at least state that they have no reason to believe the records Mr. Crawley provided back to them have been tampered with and are thus inaccurate. Why is the City now spending so much money on this hearing rather than just stating that they either have or have not produced all records requested?

Jerry Dearinger
