

News Release - 1/24/2023

It's Only Half Time – Delta Force Declares War on Blackwater

Community Support Foundation

PO Box 139

Logan, Utah 84323

On Monday January 9th SCOTUS decided not to hear the case *Brunson vs Adams et al*, which prompted my reply to comments that “The Game Was NOT Over, but rather it was only half time.”

On Tuesday January 10th, I was notified that Monday was a “Shatter Point” for the Constitution and that a large military action was now under way, although I was told not to say anything about it at that time. It has occurred to me since then that the military was waiting for a catalyst to intervene. I believe that this has now happened.

Since then, we were notified that the airlines had been grounded, due to a “malfunction,” but at the same time there were 52-58 military refuelers in the air supporting an untold amount of other military aircraft with destinations unknown. These groundings of aircraft we later learned were in 3 different countries.

We also had a report that General Berger had gone missing, who has since been located and returned from his captors, who interrogated, tortured, and abused him. His captors are now lifeless.

In Salt Lake and Utah Counties in the State of Utah, the Department of Child and Family Services (DCFS) in conjunction with the courts have appeared to be relentless in an over-reach to violate parental rights and placing children in harmful situations and/or physically removing children from their parents and homes. Long time professional has commented that “they have never seen this type of behavior in their 40+ year careers.” One individual who spoke with me said that DCFS appears to be desperate in their attempts to generate a source of income.

The investigations of Satanic Ritual Abuse in Utah, Juab, and SanPete Counties surrounding David O. Leavitt and David Hamblin continue at a record pace in revealing numerous abusive events and victims, which together illustrates the enormity of the problems along with the efforts of those in authority to cover it up here in the State of Utah.

On Thursday, January 12th, my military liaison informed me that he had been attacked by a seven-man team of paramilitary types, while pursuing a personal assignment connected to both of us. The attempted ambush did not go well for these would-be attackers, each of whom was neutralized. A nearby Commander of a Delta Force Team was dispatched for recovery and cleanup efforts. Their report showed that the attackers were members of an elite force known as “XE” or “Academie” - formerly known as “Blackwater.” – Sort of make you wonder just how it is that a bunch of nobodies from the State of Utah can be so important to have Blackwater after them? What's up with that?

This incident was very troubling to all of us, as very few individuals knew of the personal assignment. Realizing that there was a mole in our midst, a ruse was created to draw out those involved in our intelligence breach. The Delta force commander soon reported that they had surveilled conversations of the mole (the security leak) and the organization who had hired “Blackwater.”

On Thursday January 19th, my military liaison confirmed through the Commander that the intel I had received earlier from a confidential source was correct. On Wednesday January 18th, I was informed that someone from the US Attorney General Office was in Logan, Utah meeting with the County Attorney's Office. Given the past performance of Attorney General Merrick Garland's behavior, it was clear to us

that the US Attorney's Office seems to be more interested in covering up intel rather than exposing it. – Once again, what does little old Logan, and the State of Utah have to do with all that is going on in this nation? – See Community Support Foundation History provided below.

Continuing with the ruse, it was announced that my military liaison would be returning to complete the personal assignment on Saturday January 21st. What was not revealed, however, was the Commander of the Delta Force had agreed to provide backup surveillance and protection, which included the use of (4) Apache helicopters with thermal imaging systems. About three hours before reaching the designated location, my military liaison contacted me to report that the Commander of the Delta force had reported that a 52 member "Blackwater" team was lying in wait for his arrival. The Commander had also reported that the entire threat had been eliminated! (Body count 59)

A few hours later, my military liaison arrived at his destination, along with his dogs, and was told by two low level flunkies that he was not allowed to enter the area because there were military maneuvers taking place in that area. Returning to his car, he contacted the Commander and was informed that there was now a 200 member "Blackwater" team in the area. Sometime later, I received another call informing me that Delta Force had declared WAR on "Blackwater," and then stated that the Commander had ordered the use of an A10 Warhog to neutralize the entire area. (Total body count – approx. 259)

It should be clearly evident by now that somehow the State of Utah lies at the heart of these military actions and that **THERE IS SOMETHING that SOMEONE is trying to PROTECT/HIDE or TO OBTAIN right here in sleepy little old Utah.** Do you think its time to wake up?

Community Support Foundation History

The following information provided to US Attorney, John Huber, in the Whistleblower Appeal on April 15, 2019, which includes Community Support Foundation's efforts to expose corruption in the courts, and Satanic Ritual Abuse, that is so prevalent in Cache Valley, Utah:

Three Friend of the Court Briefs were filed on Monday December 14th, 2015 in the First District Court of Cache County Utah regarding claims of Prosecutorial Misconduct and Public Corruption along with concerns about ISIS influence in Cache Valley. - The Friend of the Court Briefs were filed on behalf of Jeena Nilson, Michael Anthony, and Andrew Lesky.

Nilson, Anthony, and Lesky, are not the only ones who are caught up in this crushing cycle of prosecutorial misconduct, judicial abuse, and public corruption, here in Cache County. - Lonnie Nyman, Brevan Baugh, Torrey Green, Ryan Wray, and Jason Relopez, just to name a few, are part of the long list of victims that seems to grow on a daily basis here in Cache Valley. (Each of whom seeming share a strikingly familiar story of alleged sexual assault, prosecutorial misconduct, judicial abuse, and public corruption.) - [The disclosures are problematic for Judge Brian Cannell, the court, and the other parties named in the briefs and other affidavits. - So, it doesn't take much of an imagination to see why there has been so much effort to attack the character and credibility of anyone who stands up against this evil.]

The Friend of the Court Briefs were later updated in litigation filed in the Providence Justice Court in February of 2017, in a legal claim against Thomas H. Fairbanks by a party who was attempting to distance themselves from their involvement with the Friend of the Court Briefs.

Following the receipt of several voicemail threats, this matter was then sent to the Utah State Bar Association and the Utah State Attorney General's Office appealing for their aid and assistance. (See Exhibit D - Utah State Bar Association and the Utah State Attorney General Request for Assistance) – Three weeks following Fairbanks' interview with Nate Mutter, the Section Chief for Special Prosecutions and Public Corruption, Mr. Mutter made an admission that it would be a conflict of interest for the State Attorney General's office to investigate Fairbanks' claims. (???)

Mr. Mutter then referred Fairbanks to the FBI for assistance. When he asked for a name, he told me to look it up on the internet. Because of his previous experience with the FBI outlined in the friend of the court briefs, Fairbanks chose to not address this matter with the FBI at that time. Mr. Mutter's comment is a most disturbing admission that indicates the Utah State Attorney General's Office is complicit in the prosecutorial misconduct, judicial abuse and public corruption addressed above!

Approximately seven months later John Huber's office filed charges against Fairbanks for Securities Fraud, Wire Fraud, and Money Laundering.

A personal friend of Fairbanks was repeatedly told that Fairbanks had "pissed off" some very powerful people who wanted him destroyed. For a long time, everyone thought Fairbanks' situation was the result of local political influence seeking his destruction? That is until; it was discovered a few months later that John Huber had actually reported his findings on the Clintons and their Foundation in January 2020. Almost everyone was shocked to learn that John Huber claimed that there was nothing to be found and most chuckled when President Trump called Huber a "human garbage disposal."

The realization that Fairbanks' claims might be personal to John Huber, the man who reported there was nothing to see, was startling. In December of 2017, approximately sixteen months prior to the Defendant's indictment, Fairbanks wrote a book titled, American Crossroad of Trust, which was published by Amazon on January 18, 2018. The book details the current condition we are experiencing here in America and a good portion of the book addresses many of the matters that have come from the Clintons and their cartel. In the first edition the last chapter makes the connection to the Bundy mistrial, the John Podesta emails and National Monuments, which points directly to uranium and Hillary Clinton's actions that resulted in the selling of 20% of our Uranium Deposits to an enemy of the State (all from public records). Fairbanks later added an additional chapter in the second edition to include the Russia Collusion Hoax and the story of Hillary Clinton's interview with Matt Lauer, which ends with Hillary's tirade in which she states that if Trump is elected, they (Hillary and her cohorts) will all hang!

Everything John Huber was assigned to investigate was exposed and published long before John Huber reported there was nothing to see AND THEN the Fairbanks asked for John Huber's help as a whistleblower. Surely this is more than a coincidence!

In February of 2021 a copy of the Video, Victim and Witnesses statement was delivered to the Fairbanks by a concerned citizen of Cache County, which was then sent to President Donald J. Trump, Sydney Powell, and Lynn Wood.

The anonymously written statement details a meeting in the home of an SRA Victim when Fairbanks first met the author of the statement, and which reveals the identity of the

Satanic Ritual Abuse (SRA) victim and her perpetrators. The statement also supports statements Fairbanks made in his answer to the litigation filed against him in 2017.

The Victim and their many other co-conspirators, named in numerous affidavits and the Friend of the Court Briefs, certainly do have a lot to hide [and answer for] about their connection to Public Corruption, Sex & Human Trafficking, and Satanic Ritual Abuse. So, it seems rather clear as to why there has been so great an effort to indict and to destroy Fairbanks and his credibility. ***Where there is smoke, there is fire!***

Under the cover of darkness, Fairbanks was informed by his military liaison that 3 para-military teams were in the Logan Utah area on May 9, 2021 and that (3) groups were taken out because of their involvement with pedophilia and sex trafficking. One group of about 75 individuals was in a barn in Preston Idaho, another was near North Logan Utah, and the last one was located in Wellsville Utah. Fairbanks was asked if he could reach out to his sources to confirm that such an event had taken place. In response to his inquiry, Fairbanks was told that the military action had taken place.

The following night Fairbanks' military liaison returned and asked if he had any documentation that the military liaison could deliver to the "top brass." The next evening, Fairbanks handed off a USB drive with copies of the (3) Friend of the Court Briefs, Affidavits regarding John Huber's indictment, and numerous documents regarding Corruption and Satanic Ritual Abuse in Cache County Utah. The next evening the military liaison returned to inform Fairbanks that the documents had been delivered and the following evening the military liaison returned again questioning Fairbanks, **"What was on that USB drive? – Your name is all over Washington."**

From that day to this, Fairbanks has been actively involved with the military liaison and his contacts pursuing the exposure of pedophilia, human trafficking, and Satanic Ritual Abuse here in Cache Valley Utah.

Fairbanks was introduced to Ken Cromar and some of his associates on September 26, 2021 in Logan, Utah and they all agreed to assist one another in the exposure of truth. It is interesting to note that less than 30 days after meeting Ken Cromar and within the week of Fairbanks passing on intel involving high level individuals who are involved in Adrenochrome and sex and human trafficking in Argentina, Fairbanks was hospitalized for "COVID," given remdesivir, life flighted to IMC in Murray, Utah where he spent the next 31 days followed by 2 weeks of rehab. His hospitalization was for 45 days at a cost in excess of \$1,136,000. - **Fairbanks wasn't supposed to come out of it alive, but miraculously he did and now it's payback time.**

Fairbanks and the Community Support Foundation have been actively involved in exposing the corruption of the DOJ through a Friend of the Court Brief in support of Barbie & Ken vs Goliath IRS and have also provided a Friend of the Court Brief in Support of Brunson vs Adams et al before SCOTUS.

AND NOW Delta Force has declared War on Blackwater. Is this part of the reason why a bunch of nobodies from the State of Utah find themselves in the middle of all of this? - And upon my house it shall begin and from my house it shall go forth. D&C 112:25

"Together, we stand to urge SCOTUS to DEFEND the CONSTITUTION, uphold their oaths of office, and reconfirm the belief that communities are bound together by a common unity in principles, such as the "Principles of Good Business[®]," and that "good conduct" is a mandatory requirement by the courts and community at large." – ***Where there is smoke, there is fire!***
